design

The wine fountain is a new concept of catering.

You can pour yourself a glass of wine right from the wine barrel. Our outdoor area offers stunning views of the Karst, vines and grapes, from which the noble nectar is made. Here you will enjoy direct contact with the wine culture and the wine-growing landscape. Socializing will become even more fun next to a wine barrel and with a glass of wine.

We have selected two exceptional local wines for you: Karst Teran and Vitovska Grganja. Grganja is becoming increasingly recognizable and sought-after variety of white wine in addition to Teran, the undisputed king of the Karst wine offer.

We look forward to spending time with you.

Thank you.

PANORAMA Štanjel

Food and drinks

Dear guests,

welcome to our Panorama Štanjel bistro. We are happy to offer the best of the Karst. In our selection you will find excellent local wines that you can order "by the glass" or pour them simply by yourself from the "tap" – The very first wine fountain in the Karst is called Fontana Terana (the Teran fountain).

Try thinly sliced Karst prosciutto and fine Brkini cheese. Our cold cuts and cheese platter is really excellent - we recommend it. For dessert, we serve delicious home-made štruklji (typical Slovenian dumplings).

Last but not least, we propose the real Gorizia espresso coffee, the best under the sun.

Everything served at your table will be exceptional. We promise!

... have we mentioned yet our famous iced tea made according to my grandmothers' secret recipe?
